

## Sample First-Semester Schedules at Georgia Southern University

What does a typical semester look like for a first-semester student? A schedule is usually a combination of core curriculum classes and “gateway” courses to a student’s specific major. Because taking courses is one of the best ways to evaluate whether a major is for you or not, we encourage undeclared students to take both core classes and “gateway” courses in one or more potential majors. Sample schedules for four common majors are listed below. At the summer orientation program for new students (SOAR), academic advisors will help you build the best schedule for YOUR major and interests!
