1. Make a 32” square by crosshatching pallet boards
2. Cut a 2’ circle out of the square
3. Then cut a 3 inch larger circle out of the remaining crosshatch
4. Cut 18 boards to 32”
5. Cut the ends of 9 of the boards to a 40 degree angle
6. Screw the cut boards (cut side up) to the 2’ circle and then 37” circle
7. Cut out 8 half of 2’ circles from single boards
8. Nail them together to make a circle
9. Nail one side of the center 9 boards to the first board and the circle that you just cut out
10. Drill 4 evenly spaced holes through all three holes and put a rope through all of them
11. Put a large washer on the bottom of the rope and tie a knot
12. Enjoy your hanging chair
