Materials:
3 pallets
Power drill
16 nails
Crowbar
Hammer
Sandpaper
Polish

1. Completely disassemble all pallets, removing all nails.
2. Saw 2 side panels in half.
3. Place the additional panels, not including the sides you cut in half, horizontally across 2 side panels no more than half of an inch apart to the desired length.
4. Nail top panels into side panels.
5. Nail an additional side panel vertically to middle of tabletop bottom.
6. Nail a sawed apart side panels to each corner of the bottom of the tabletop. These are the legs.
7. Attach a panel between the legs.
8. Sand your table.
9. Polish your table.
