NO. 2 Pencil with Eraser

Stuffing

MATERIALS NEEDED:

- Tie
- Dried peas or pebbles
- Glue gun
- Hot glue gun
- Pencil
- Long stick

Time for the eyes! Hot glue your 2 googley eyes to the top of the fork tongue. Now hot glue the bottom end to the inside of the container bottle with the dried peas or pebbles inside the tail end before you hot glue it closed. Then, open up the flap and add just enough stuffing to fill the bottle. Glue the flap closed. Next, push a pencil or long stick into one of the sides of the tie. Using the pencil or long stick, push the other side of the tie right up against the pencil or long stick. When you release it, the pencil or long stick will make a little wheel on the inside bottom of the tie. This will make it easier to slide the tie through a hole in the flap. Now just tie it tightly closed with a piece of string or yarn and you've created a snake! This makes a great gift for friends or family who love wildlife. You can even add a name tag to make it even more personal. By using materials that are easily available, you can create a unique and fun gift that will be enjoyed for years to come. This project is suitable for all ages and can be customized to fit any occasion. A great way to spread the love of wildlife and encourage learning through play. So, give it a try and see how much fun you can have creating your very own snake!
